55x40, 55x45, 55x50,
55x55 cm

CUSTOM SIZES

All dimensions available

PRODUCT CODE

GSP"WxD" eg. GSP4545

WEIGHT CAPACITY

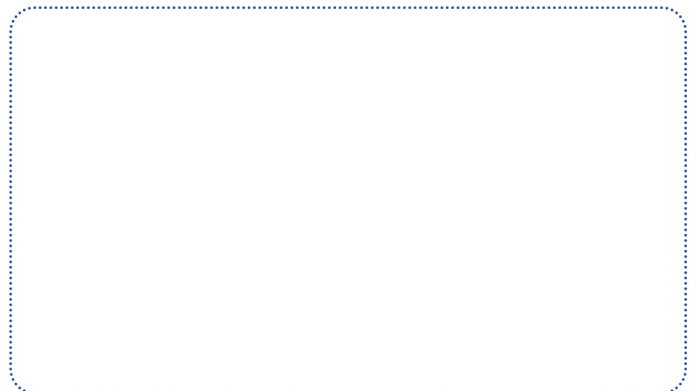

Recommended maximum 125kg

The **Geo-Matrix™ Split** cushion is often used to provide comfort for users who require gentle positioning and contouring with excellent pressure redistribution and vibration control. The Split cushion features an 8" split directly through the centre of the pommel. This allows wedges to be inserted under one or even both sides of the cushion's leg trough region to accommodate the desired hip angle required for each individual user. The Split cushion comes with a "fit kit" of various wedges. Each wedge secures to the base of the cushion using velcro. These wedges can be added or removed as needed for on the spot customization. This also allows for modifications to be easily made to the cushion if the user's condition should change.

To further the Splits custom feel and protection there are different insert options that may be add underneath the high risk coccyx section. These inserts are:

- Gel infused memory foam
- Geo-Matrix Pillow top

Blake Medical esteemed distributor:

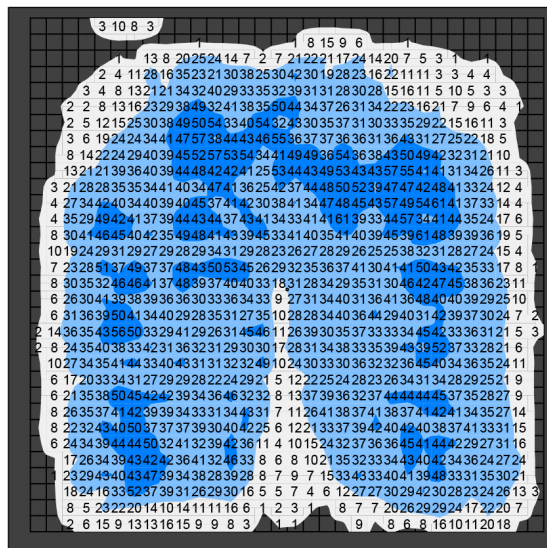

WASHING INSTRUCTIONS

Covers: 60°C in washing machine. Hang to air dry. Do not bleach.

Geo-Matrix™ gel and foam: Wipe down gel using any cleaner that does not contain bleach and allow to air dry.

For more specific cleaning instructions please visit our website or user's manual.

All of Blake Medical products are free from phthalates and latex. This includes all medical fabrics, Geo-Matrix™ gel, moulded polyurethane, standard polyurethane and specialty foam. All cushions meet EN-1021 part 1 & 2 requirements for fire retardancy.

Client: Male 71kg

ADDITIONAL BENEFITS

- Cushion remains 2-3 degrees cooler under seated body temperature to assist with microclimate management.
- Minimizes shear through column segmentation.
- Geo-Matrix™ Gel does not change structure in climates of extreme heat nor extreme cold.
- Geo-Matrix™ gel is recyclable through Blake Medical.
