

GRAB HANDLES

Grab (support) handles can be located either side of a profiling bed to assist in transfers or turning in bed.

There are three options below that fit our profiling beds.

The grab (support) handles cannot be fitted on the Alpha/Etude bed if concertina side rails are being used.

Padded covers are available too for any size.

Handle A&B

Scan Alpha bed
and Etude/SB755 beds

500mm long x 400mm high

Handle C

Universal Small

245mm long x 610mm high

Handle D

Universal tall

255mm long x 260mm high
